Statistical Abstract
1956

STATISTICAL ABSTRACT, 1956

(Tenth Issue)

Introductory Notes

1. **Purpose.**—The Statistical Abstract for the State of West Bengal which is published annually, is prepared by the State Statistical Bureau, with the co-operation of various Government Departments and some commercial organisations. It is designed to serve the purpose of a convenient reference book for quantitative summary information regarding the Socio-economic conditions of the State.

2. **Scope.**—The scope of the Abstract is revised from time to time to include new statistical information as it becomes available. Current data for many of the series appearing in the Abstract are contained in the Monthly Statistical Digest prepared by this office.

3. **Source.**—The names of the Departments and Organisations responsible for providing each series of statistics are stated at the close of each table. Some of these data were compiled by the assistants of the Bureau from the records of the offices concerned and are not officially confirmed.

4. **Area covered.**—Except where otherwise stated all statistics relate to the State of West Bengal including Cooch Behar and excluding Chandernagore and transferred areas from Bihar.

5. **Period.**—Except where it is stated to the contrary all statistics are for calendar year ended 31st December. The tables in the Abstract contain the latest statistics that were available at the time of sending the manuscripts to the press, even though they had not appeared in departmental publications till then. Attempt has been made to present information, wherever possible, for the last ten years.

6. **Comparison of figures.**—As a result of the Partition the areas of the following five districts, namely, 24-Parganas, Nadia, Malda, Dinajpur and Jalpaiguri were affected. The statistics of these five districts, therefore, for periods prior to the Partition had to be suitably adjusted for the purpose of tables showing comparative data for current periods with those for pre-Partition periods.

7. **Changes of basis.**—Owing to changes either in the method of computation or in the area covered, the statistical series do not, in many cases, maintain absolute uniformity over the period to which they relate. In such cases, a footnote is added indicating the nature of the difference.

8. **Revisions.**—Some of the figures incorporated in this Abstract are regarded by the supplying agencies as provisional only and may be revised subsequently.

9. **Rounding of figures.**—Wherever necessary, each figure has been rounded off to the nearest unit. For this reason, apparent discrepancies between the sums of the constituent items and the totals shown, may be observed in some tables.

10. **Symbols.**—The following symbols have been used throughout the Abstract :—

.. Not available.

— Nil or negligible (less than half unit).

P Provisional.

R Revised.

11. **Responsibility.**—The contents of the Abstract are taken from a large number of sources. The State Statistical Bureau does not accept the responsibility for the accuracy and limitations of the data presented in the book, other than those which it directly collects.

12. **Comments and suggestions.**—Readers are requested to make their needs known to the Bureau and put forward comments and suggestions relating to improvement of the presentation of materials. Such suggestions are always welcome and will be carefully considered in planning future editions.

R. P. Ganguly.

Director.

APPENDIX.

A—Weights and measures.	519
B—Foreign exchange rates.	520

AREA AND POPULATION

1. This section deals with the area and population of the State of West Bengal, their distribution and characteristics.

2. The source of the population data is the decennial census of population, a house to house enumeration made once every ten years, under the Indian Census Act. The first regular census in Bengal was taken in the year 1872, though it was scheduled to be taken in 1871. Since 1881 census was taken regularly at the interval of ten years.

3. It may be mentioned that the present State of West Bengal has come into existence as a result of the Partition of Bengal in 1947, the eastern portion being included in Pakistan. There were fourteen districts in West Bengal at the time of the Partition including Calcutta. On the 1st January 1950, the State of Cooch Behar was merged with West Bengal and was constituted as an additional district.

4. The data shown in this section were selected chiefly from the Ninth Census which was taken between the 9th February and the 3rd March 1951 (inclusive). A number of series over a period of time has been given to show the trends.

5. The fundamental factors, such as sex and age distribution, marital status, religion and mother tongue that influence a multitude of events and activities of social, economic and political life, have been dealt with in some detail. Occupation and literacy statistics, though related to population, are presented in "Employment and Labour" and "Education" sections, respectively, due to their closer affinity with those subjects.

6. In the Eighth Census Report (1941) the population was classified mainly by community and area only. Tables showing age and civil condition of 1941 population are based on the tabulation of two per cent. samples of census slips carried out by the Government of India, and those of 1951 are the estimates for the total population based on a ten per cent. sample results, excluding refugees plus refugee population in each class. It may be noted that the sampling method for the above purposes was used for the first time in 1941 in respect of the Census.

7. It may also be mentioned that definitions of terms like "House", "Village", "Town", "City", etc., have undergone some minor changes during successive censuses. These changes have not been taken into consideration in the preparation of the time series of this section referred to in paragraph 4 above.

8. Figures for previous census years have been taken, wherever available, from the Census Report of 1951. Figures from earlier census reports were used for the other census years. The number of previous census years for which figures have been shown in the Census Report of 1951, is not the same for all tables. Under these circumstances, the figures for one census year in one table in this Abstract may not always agree with the corresponding figure in another table due to the different sources used. These differences are, however, small and are generally due to later adjustment of figures as corrections for area.

9. Chandernagore, formerly a French possession, merged in the State of West Bengal on 2nd October, 1954 and has formed a part of the district of Hooghly since then. It has an area of 3.73 square miles and population of 49,900 according to Census 1951.

10. Unless stated otherwise figures shown in the tables do not include figures for Chandernagore and the areas transferred from Bihar to West Bengal.

Source; Census Reports.

*Excluding Cooch Behar.

†Including "age not stated" in case of 1951.

‡Including Chandernagore, but excluding refugee population of this area.

Notes.—(1) The figures for the year 1941 are based on sample tables published by the Census Department. These were prepared from 2 per cent. of the census slips.

(2) The figures for 1951 represent estimates for the total population of West Bengal and are based on the results of 10 per cent. sample population excluding refugees plus refugee population in each class.

*Excluding Cooch Behar.

†Including "age not stated" in case of 1951.

Source: Census Reports.

**Including Chandernagore, but excluding refugee population of this area.

Notes: (1) The figures for the year 1941 are based on sample tables published by the Census Department. These were prepared from 2 per cent. of the census slips.

(2) The figures for 1951 represent estimates for the total population of West Bengal and are based on the results of 10 per cent. sample population excluding refugees plus refugee population in each class.

‡ Area and density are given in acres and per acre respectively.

§ 2,804 acres of the Port Commissioner's area included in the wards of Calcutta Corporation and in the total of 18,136 acres of Calcutta Municipal Area, the remainder 986 acres or 1.54 square miles representing Calcutta's shore of the River Hooghly, being shown under Calcutta. 64 acres of Port falling within South Suburban Municipality are not shown, although population of this strip has been included here under the Port. The population of inland and ocean-going vessels, counted outside this area by the Port Authorities has also been included under Port.

(a) Being area provided under the Surveyor-General of India.

(b) Being area received from the State Government.

Source : Monthly Abstract of Statistics, (November 1957), Government of India.

(1) No Census was conducted during 1951 in Jammu and Kashmir. The area of the State is 85,861 square miles and Registrar General's estimate of population as on 1st March, 1951 was 4.41 millions. The area of Sikkim is 2,744 square miles and the population according to the 1951 Census was 137,725. Tribal areas of Assam were also not included in the 1951 Census. A local estimate of population placed is at 561 thousand persons.

(a) Includes 32,289 square miles of Tribal areas of Assam where no census was taken in 1951. For calculating the density this area has been excluded.

CLIMATE

1. The major factors that influence the climatic condition of a country are temperature, rainfall and humidity. The seasonal variations of these climatic factors in West Bengal over a period of ten years are shown in this section.

2. Climatologically, the State of West Bengal has been divided into two zones. The northern zone is called the Sub-Himalayan West Bengal and the southern zone is called the Gangetic West Bengal.

3. The Department of Meteorology, Government of India, collects these data from a number of stations situated all over the country. These are the primary sources of climatological data. In West Bengal there are at present fourteen meteorological stations for which daily weather reports are published. The Department of Agriculture of this State, however, collects rainfall data from each district and publishes them in the Gazette.

4. In this section, Temperature and Humidity figures are presented for twelve important meteorological stations of the State. The rainfall figures are, however, shown for each district separately and an average figure for the State is also given.

5. The mean shown in different tables represents the simple arithmetic average of the period of record or of the recording centres, as the case may be.

6. Unless stated otherwise figures shown in tables do not include figures for Chandernagore and the areas transferred from Bihar to West Bengal.

II CLIMATE

Mean Temperatures, by station, by month

(Average of daily maximum and minimum temperatures.)

(Compiled from the office records of the Meteorological Department.)

Vital Statistics including Medical Care and Public Health.

1. Until 1946, the work of collection and compilation of Vital Statistics and Public Health data was done by the Directorate of Public Health and that of medical care by the office of the Surgeon-General. Figures were published separately in the Annual Administration Reports of those two Directorates. Since 1947 the work of both the Directorates has been entrusted upon the newly-formed Directorate of Health Services.
2. Statistics of vital events are collected under the Bengal Birth and Death Registration Act, 1873, which made the registration compulsory throughout the State. The Bengal Public Health Report is one of the oldest Government annual reports and its publication dates back to the year 1868.
3. The series relating to vital events given in this section cover generally a period of ten years. Events are shown by place of occurrence of birth and death and not by the place of residence of the father or of the deceased. Still-births are excluded from both birth and death statistics and are shown in a separate table.
4. Birth and death rates are based on the mid-year population estimated on the "Natural increase method". Infant mortality and maternal death rates are, however, calculated on the number of live births and the total number of births respectively.
5. Statistics on morbidity are not included in this volume. These are collected for epidemic diseases only and are published every week by the Directorate of Health Services.
6. The State is very poor regarding marriage statistics. Hindu marriage requires no registration. Statistics on Hindu marriages are, therefore, not available. This section includes only the number of civil and Muslim marriages and divorces under the Mahomedan Law.
7. Annual Statistics of medical care are limited to data on hospital and dispensary facilities and are compiled from the annual returns furnished by different hospitals and dispensaries of the State. These figures were published in the Annual Report on the working of the hospitals and dispensaries in Bengal till 1946.
8. Unless stated otherwise figures shown in the tables do not include figures for Chandernagore and the areas transferred from Bihar to West Bengal.

III—VITAL STATISTICS (including Medical Care and Public Health)

(i) Vital statistics

Estimated mid-year population of West Bengal by sex, by rural and urban areas.

Estimated by adding the balance of births and deaths of each year to the estimates of preceding year and corrected in every ten years from the Census Record. Figures for 1951 relate to Census figures)

†Those who do not appear at the Examination of Nursing Council but passed the Hospital Examination.

Note :—These figures represent the total number on the Register on 31st December of the year.

EDUCATION.

1. Statistics on Literacy and Education have been dealt within this section. Data on education, are, however, not merely limited to the educational institutions and scholars. Information regarding related subjects, such as, Libraries, Reading Rooms, Printing Presses, Newspapers, etc., is also included.

2. The official report on Public Instruction in West Bengal which is published annually by the Directorate of Education contains data on all aspects of primary, secondary, technical and university education. Data on literacy, however, are not collected every year. Up till now, the decennial census of population is the only source of literacy statistics in this State.

3. Institutions for general education in West Bengal are controlled by the Department of Education, the University of Calcutta, Jadvpur University, Visva Bharati, Board of Secondary Education, district boards, municipalities, district school boards and a number of religious and philanthropic societies. The control of medical, agricultural, technical (except engineering) and industrial education is vested in the Departments of Medical and Public Health, Agriculture and Industries, respectively.

4. The Forms in which educational statistics are published in this State were prescribed by the Government of India and are used throughout the country. The forms were revised in the year 1949-50, making provisions for new subjects, such as, library, reading room, adult education, etc., and have since been used for the purpose.

5. Data have not generally been given for periods prior to 1946-47. Data available for periods earlier to 1946-47 relates to the undivided province of Bengal. As the districtwise figures are not available for those periods it has not been possible to prepare a historical series in comparable form.

6. It may be mentioned that the statistics on education are collected independent of any Act. But there is no lack of co-operation on the part of educational institutions in this regard.

7. In this section, educational institutions are classified as Recognised and Unrecognised. The definitions adopted for the terms are given below:—

“Recognised Institutions are those in which the course of study followed is that which is prescribed or recognised by the Director of Public Instruction or by a University or by a Board of Secondary and Intermediate Education constituted by law and which satisfy one or more of these authorities, as the case may be, that they attain to a reasonable standard of efficiency. They are open to inspection and their pupils are ordinarily eligible for admission to public examination and tests held by the Directorate or the University or the Boards.”

“Unrecognised Institutions are those which do not come under the above definition of Recognised Institutions.”

8. Unless stated otherwise figures shown in tables do not include figures for Chandernagore and the areas transferred from Bihar to West Bengal.

Agriculture and related subjects

The statistics relating to agriculture and related subjects have been dealt with in this section. As at present organised, different departments of the State Government are responsible for statistics on different subjects. Each of the major subjects will, therefore, be discussed below separately.

(A) Agriculture.—1. The Directorate of Agriculture of the Government of West Bengal collects data on agriculture and publishes them in different departmental reports. These are the primary sources of Agricultural Statistics in West Bengal.

2. The reports on settlement operations published by the Land and Land Revenue Department also supply valuable information regarding agricultural condition of the different districts. But as the year of the survey varies from district to district, it is not possible to present them in comparable form.

3. In 1944-45 a complete survey of crop and acreage by plot to plot enumeration was undertaken by the Department of Agriculture, in Bengal. The results of the survey have formed the basis of Agricultural Statistics in this State since then.

4. The collection of reliable statistical data regarding the acreage and yield of principal crops by sample survey method was initiated in 1938. Sample survey is now regularly undertaken for *jute*, paddy and important Rabi crops every year.

5. The agricultural year in this State commences from the 1st July and ends on the last day of June. The statistical series presented in this section generally cover a period of *ten* years.

6. The area of the State is classified under different heads which require explanation—

(a) *Area under forest.*—“ This area includes the forest areas administered by the District Collectors and local bodies in addition to the forests worked by the Forest Department but excludes non-forest areas worked by the Forest Department.”

(b) *Area not available for cultivation.*—“ Under this class come land which is absolutely barren or uncultivable or covered by buildings, water and roads or otherwise appropriated for non-agricultural purposes.”

(c) *Culturable waste other than fallow.*—“ This denotes land fit for cultivation but not taken up and includes groves, areas under bamboo and thatching grass when not included under forests.”

(d) *Current fallows.*—“ These denote culturable areas which after abandonment lie uncultivated over a defined period. After this period the land is classified as culturable waste other than fallow.”

7. Crops in West Bengal are, however, classified according to their sowing and harvesting period into three broad heads. These are known as (1) Bhadoi or Aus or Autumn, (2) Aghani or Aman or Winter and (3) Rabi.

8. The Bhadoi season commences roughly from the month of March and continues up to the month of September while the Aghani season begins from the middle of July and ends in the middle of February, but the Rabi season extends from the month of October to the month of April. The seasons are all overlapping and the periods depend on three factors namely, (1) time of sowing, (2) type of crop and (3) the local climate.

(B) Irrigation.—Irrigation measures in West Bengal are classified as (1) Government canals, (2) private canals, (3) tanks, (4) wells and (5) other sources according to the source of water-supply. The statistics on Irrigation are published by the Directorate of Irrigation and Waterways in their annual Administration Report. The Department of Agriculture also publishes data relating to area irrigated and crop irrigated in their reports which they collect from the Irrigation Department.

(C) Forests.—1. The merger of Cooch Behar with West Bengal increases the forest resources of the State.

2. Before merger the State forests were confined mainly to three districts, namely, 24-Parganas, Jalpaiguri and Darjeeling.

3. The annual report of the Forest Administration is the only source of forest statistics in West Bengal.

(D) Live-stock.—Data relating to live-stock in West Bengal are not collected every year. The only source of live-stock statistics is the quinquennial census which is held once every five years. The first census was held in 1912. Statistics relating to dairy and poultry products are not available in this State.

(E) Veterinary.—After partition of Bengal, veterinary services came under the control of the Directorate of Agriculture. But since 1950, a separate Directorate of Veterinary Services has been created. The annual report of the department contains statistics relating to veterinary aid. As the report contains only State data it is not possible to estimate figures for West Bengal for the pre-partition period. Figures for post-partition years only are presented in this section.

(F) Fisheries.—The State is very poor regarding statistics on fisheries. An attempt has been made here to give an idea of the supply of fish to Calcutta and Howrah, the two principal cities of the State.

Unless stated otherwise figures shown in the tables do not include figures for areas transferred from Bihar.

Cooch Behar	15.2	15.5	15.4	15.4	15.4

*Forest means "any land classed or administered as forest under any legal enactments dealing with forest".

**Revised on the basis of Director, Land Revenue and Survey, West Bengal's estimates of district area as published in the census report of West Bengal, 1951.

(a) The geographical area of Cooch Behar for the years 1950-51, 1951-52, 1952-53, 1953-54 and 1954-55, are 843,700 acres, 846,500 acres, 846,500 acres, 846,500 acres and 846,500 acres respectively of which no return for agricultural statistics exist for 23,100 acres, for each of the years of 1950-51, 1951-52, 1952-53, 1953-54 and 1954-55. So classified break up of the remaining 820,600 acres, 823,400 acres, 823,400 and 823,400 acres have only been shown for the above mentioned years. Therefore the total geographical area of West Bengal will be 19,641,100 acres, 19,868,500 acres, 19,868,500 acres, 19,868,500 and 19,868,500 acres, for those years.

(1) Excluding Chandernagar Town area.

Source: Conservator General of Forests, West Bengal.

(a) Concerns Private Forests only.

(b) Includes 25,00,000 C.ft. of timber concerning forests owned by civil authorities, Corporate bodies and Private individuals.

(c) Includes 7,000 C.ft. of fuel from leased Lands.

(d) Includes 23,000 c.ft. of timber and 1,67,000 c.ft. of fuel concerning forests owned by Corporate bodies and private individuals. The figures of outturn of forest produce from 600 acres of forests owned by private individuals are not available.

(e) Includes 66,000 c.ft. of timber and 11,000 c.ft. of fuel relating to forests owned by Civil authorities and private individuals. The figures of outturn of forest produce from 2,126 acres of forests owned by Civil authorities and 6,801 acres of forests owned by private individuals are not available.

(f) Includes 76,000 C. ft. of timber and 601,000 C.ft. of fuel concerning forests owned by Civil authorities and private individuals. The figures of outturn of forest produce from 2,425 acres of forests owned by the civil authorities, and 6,504 acres of forests owned by private individuals are not available.

(g) Includes 23,000 C.ft. of timber and 603,000 C.ft. of fuel concerning forests owned by Corporate bodies and private individuals. The figures of outturn of forest produce from 600 acres of forests owned by private individuals are not available.

(A) Relates to private forests only and no data are available.

[Except above, all other figures relate to Reserved and unclassified State Forests.]

* Includes 3,000 C.ft. of fuel from leased lands.

FUEL AND POWER

1. Data on the production and distribution of coal are collected by various official agencies and published periodically in different reports. The Chief Inspector of Mines, Government of India, compiles statistics relating to coal mines coming under the Indian Mines Act, 1923, and publishes them in his "Annual Report".

2. It may be stated here that the coal resources of West Bengal are confined to five districts, namely, Burdwan, Birbhum, Bankura, Darjeeling and Purulia. But the coal fields in Burdwan alone produce more than 90 per cent. of the total output of coal in West Bengal.

3. An attempt has been made in this section to present the progress of production and distribution of coal in West Bengal during the recent years together with the condition of her coal mines.

4. The State Electricity Board collect statistics relating to the generation and distribution of electric energy in West Bengal. The annual report on the Administration of the Indian Electricity Act, 1910, of the State Government contains data on power production and related matters of each public supply undertaking working in the State.

5. Data on the production of electric energy and capacity of generating plants by type of prime movers and segregation of total kilowatt hours sold are now compiled and published by the Central Water and Power Commission, Government of India.

6. West Bengal produces her electric power by steam, oil and water-power plants. At present Darjeeling is the only district which utilises its water resources and produces hydro-electricity at cheaper rates.

7. It may be mentioned that the statistics of electricity in this section relate only to the public utility concerns and exclude railway, military, private generations and factory power stations.

8. A list of towns and villages, where electricity is available, is included in the section.

9. Unless stated otherwise, figures shown in tables do not include figures for Chandernagore and the areas transferred from Bihar to West Bengal.

Manufacturing Industries

1. Prior to 1946 information relating to manufacturing industries was limited to the number of large factory establishments, the number of persons employed and the number of accidents which occurred therein. These primary data were collected and compiled by the Chief Inspector of Factories of the State Government under the Factories Act and published annually in the Report on the Administration of Factories Act in Bengal.

2. A new classification of industries was adopted by the Factories Department from the year 1950. In this section, therefore, the figures for 1950 and subsequent years have been shown separately from those of earlier years.

3. The Industrial Statistics Act was passed for the first time in 1942. The Act provides for an annual census of manufacturing industries in India covering all establishments coming within the purview of sections 2(j) and 5(i) of the Factories Act, 1934.

4. For the purposes of the Census the industrial establishments have been classified into 63 groups. Of these only 29 industries were brought under the operation of the Act in 1946. The scope of operation of the Act has not been extended yet. Further, the scope of the Act has been restricted to factories registered under section 2(j) only with the further restriction that it shall not at present apply to factories employing less than 20 workers or those which do not use power, although the scope of the Factories Act has since been extended to cover such factories.

5. The forms prescribed for the census were modelled mostly on the forms used in the United Kingdom, United States of America and other countries where similar censuses are being conducted. Besides general information, the form provides for statistics on capital structure, employment, wages, consumption of fuel and raw material and production of goods made for sale.

6. The census of manufacturing industries is conducted by the State Governments under the direction of the Government of India.

7. The report on the "Census of Manufactures in India" published by the Government of India contains the results of the above census.

8. Relevant statistics in respect of some important industries of this State are reproduced at the end of the section.

9. Unless stated otherwise figures shown in tables do not include figures for Chandernagar and the areas transferred from Bihar to West Bengal.

Number.

Industries	Total working factories						
	1950(a)	1951	1952	1953	1954(P)	1955(P)	1956(P)
<i>Printing, publishing and allied industries—</i>							
Letter press and lithographic printing and book-binding	153	165	173	180	173	187	199
Other printing, including photography ..	5	6	8	9	9	10	13
<i>Leather and leather products (except footwear)—</i>							
Tanneries and leather finishing ..	5	6	7	45	56	65	65
Manufacture of leather products except footwear and other wearing apparel ..	—	—	—	1	..	2	4
<i>Rubber and rubber products—</i>							
Tyres ..	2	2	2	2	2	2	2
Rubber footwear ..	12	11	13	14	14	14	14
Others (manufacture of rubber and rubber products)	13	15	15	14	14	16	15
<i>Chemicals and chemical products—</i>							
Artificial manures ..	9	9	10	11	12	12	15
Heavy chemicals ..	10	8	9	9	10	10	10
Indigo	1	1
Plastic materials ..	—	1	—	1	1	1	1
Others (basic chemicals including fertilizers) ..	4	4	5	5	4	3	3
Vegetable and animal oils and fats (except edible oils)	3	3	4	4	3	4	4
Fine and pharmaceutical chemicals ..	34	36	37	38	41	45	45
Lac (including shellac) ..	5	5	5	5	6	6	23
Matches ..	5	7	4	4	3	3	4
Paints, colours and varnishes ..	20	20	23	26	27	28	30
Soap ..	15	17	18	17	17	15	18
Others (manufacture of miscellaneous chemical products)	15	13	15	14	16	19	17
<i>Products of petroleum and coal—</i>							
Petroleum ..	9	8	8	8	8	8	8
Kerosine ..	6	8	8	8	8	6	6
Manufacture of miscellaneous products of petroleum and coal ..	6	6	5	5	5	5	5
<i>Non-metallic mineral products (except products of petroleum and coal)—</i>							
Bricks and tiles ..	6	6	7	8	9	9	9
Others (manufacture of structural clay products) ..	2	2	2	2	2	2	3
Manufacture of glass and glass products (excepting optical lenses) ..	29	29	27	27	26	29	31
Manufacture of pottery, china and earthenware	13	12	15	14	14	15	16
Stone dressing and crushing ..	4	5	5	6	8	8	7
Asbestos products ..	1	1	1	1	1	1	1
Others (manufacture of non-metallic minerals products not elsewhere classified) ..	9	9	10	10	10	10	12
<i>Basic metal industries—</i>							
Metal extraction and refining (Ferrous) ..	2	2	2	2	2	3	3
Metal rolling (Ferrous) ..	18	20	22	23	22	26	29
Tube making and wire drawing (Ferrous) ..	10	17	21	22	20	20	21
Metal founding (Ferrous) ..	94	106	106	106	100	88	94
Others (Ferrous) ..	3	—	1	1	6	8	11
Metal extracting and refining (non-ferrous) ..	7	7	7	7	7	7	7
Metal conversion (non-ferrous) ..	1	1	1	1	1	—	6
Metal rolling (non-ferrous) ..	4	3	3	3	4	3	—
Tube making and wire drawing (non-Ferrous) ..	2	4	4	4	4	6	6
Metal founding (non-Ferrous) ..	3	2	2	3	3	3	3
Others	2	4	6
<i>Manufacture of metal products (except machinery and transport equipment)—</i>							
Metal containers and steel trunks ..	75	91	90	93	98	97	100
Cutlery, locks, etc. ..	4	4	4	4	5	5	6
Bolts, nuts, nails, springs, chains, etc. ..	39	40	46	44	44	46	52
Metal galvanising, tinning, plating, lacquering, Japanning, polishing, etc. ..	2	3	3	3	3	5	6
Type founding ..	6	6	7	6	6	7	5
Welding ..	2	5	5	4	4	4	4
Safes and vaults ..	3	10	8	3	2	2	2
Others (manufacture of metal products except machinery and transport equipment) ..	189	221	223	223	218	217	233

MANUFACTURING INDUSTRIES

TABLE 17-1(b)—concl'd.

Number.

Industry	Total working factories.						
	1950(a)	1951	1952	1953	1954 (P)	1955 (P)	1956 (P)
Manufacture of machinery (except electrical machinery)—							
Hydraulic, ventilating and pneumatic engineering ..	2	2	2	3	5	4	4
Prime movers and boilers	1	3	2	2	2	3	3
Agricultural implements	8	7	6	7	7	6	6
Machine tools, wood working machinery and other tools	14	16	16	14	14	14	14
Textile machinery and accessories	12	8	7	6	6	6	8
General and jobbing engineering	67	70	68	67	68	73	77
Others (manufacture of machinery except electrical machinery)	31	49	53	49	51	54	51
Electrical machinery, apparatus, appliances and supplies—							
Electrical machinery	3	3	3	3	3	5	5
Electrical lamps (other than glass bulb making) ..	5	3	3	3	3	3	3
Electric fans, radiators and other accessories ..	24	24	19	20	18	18	19
Storage batteries	7	7	8	9	9	9	7
Radio and phonographs	5	5	5	4	6	5	6
Insulated wires and cables	2	2	2	2	3	3	4
General and jobbing engineering	5	4	6	6	4	5	7
Others (electric machinery, apparatus, appliances and supplies)	6	6	10	11	10	10	12
Transport and transport equipments—							
Ship building and repairing	17	17	17	18	18	17	19
Railway workshops	1	1	1	1	1	1	1
Tramway works	1	1	1	9	9	9	9
Manufacture of motor vehicles	2	2	2	2	2	3	2
Repair of motor vehicles	35	37	37	43	40	47	49
Repair of cycles	—	—	1	1	2	3	3
Manufacture of Bi-cycles	1	2	3	2	4	4	4
Aircraft building and repairing	2	4	6	4	4	6	5
Coach building	6	4	5	5	5	6	6
Others (manufacture of transport equipment not elsewhere classified)	5	5	6	5	4	6	8
Miscellaneous industries—							
Manufacture of professional, scientific, measuring, controlling instruments	5	5	5	6	9	12	14
Photographic and optical goods	5	6	6	7	7	7	7
Cinematograph film making, stripping, sorting and grading	—	1	1	1	1	1	1
Repair of watches and clocks	1	7	7	7	7	7	7
Jewellery	2	4	4	5	5	5	7
Pen and pencil making	4	4	4	4	4	4	5
Brushes	1	1	1	1	1	1	1
Games and Sports	—	—	—	—	—	1	1
Manufacture of ice	4	5	5	6	7	6	7
Plastic articles	12	15	14	18	21	19	17
Celluloid articles	1	1	1	2	2	2	2
Wrapping, packing, filling, etc., of articles	1	3	3	7	7	10	10
Others (manufacturing industries not elsewhere classified)	15	23	30	34	40	49	44
Electricity, Gas and Steam—							
Electric light and power	34	34	34	34	33	32	32
Gas manufacture and distribution	7	7	7	7	7	6	6
Water and sanitary services—							
Sanitary services (pumping and sewage)	—	—	1	1	1	—	—
Recreation services—							
Cinema studios(b)	—	7	7	7	8	7	7
Personal services—							
Laundries and laundry services	4	4	4	5	4	5	5
Job dyeing, dry cleaning, etc.	3	5	5	6	8	9	11

(a) Excluding Cooch Behar.

(b) Cinema studios came under the Factories Act since 1951.

MANUFACTURING INDUSTRIES

(b) Census of manufacturing industries in West Bengal

Economic structure of the factories under Census of Manufacturing Industries by Industry

TABLE 17-4.

Industry.	Year.	Establishment.		Total productive capital employed.	Average No. of workers employed per day.	Wages paid.	Value at factory of fuels, raw materials, etc., consumed and work done by the industry for other concerns.	Ex-factory value of products and work done by the industry for customers.	Value added by manufacture.
		Number of registered factories in existence.	Number of factories from which returns were received.						
				Rs.		Rs.	Rs.	Rs.	Rs.
Total	1952	1,546	1,218	1,90,16,32,143	431,023	11,12,37,138	2,16,30,53,267	3,00,35,47,681	85,13,19,600

Note :—Two separate returns were received in respect of one factory engaged in two different industries during the year, 1953 in Patna and East Punjab States union. The total number of registered factories is, therefore, one less than the total of the column.

†Figures for previous years are included in Madras State.

(a) Includes Punjab, Orissa, Pepsu, and Ajmer in respect of Sugar Industry only.

• CONSTRUCTION

1. The Collection of Statistics on construction was originally confined to the Works and Buildings Department of the State Government. The scope has subsequently been extended to the Directorates of Construction Board, Irrigation and Waterways and Road Development. Statistics on house building activity in Municipal areas of the State have become available only recently.

2. The figures for public work refer to the number and value of construction work done while the figures for house building activity refer to the number of applications for building construction received and the number of sanctions issued by the Municipalities.

3. Figures are collected quarterly.

4. Unless stated otherwise the figures shown in the tables do not include figures for Chandernagore and the areas transferred from Bihar to West Bengal.

*The figures relate only to the last quarter of 1956.

Employment and Labour.

1. Besides census figures statistics on agricultural and non-agricultural employment are not available except those for factories, mines and plantations covered by the various Acts. The coverage of these latter statistics, however, is not complete on account of the fact that these exclude workers in cottage and small scale industries which do not come within the purview of the various Acts.

2. The occupation classification of census 1951 is totally different from the classifications of the earlier censuses. It divides the entire population in eight livelihood classes of which four are agricultural and the other four non-agricultural. Each livelihood class is subdivided into three economic statutes, e.g., (1) self supporting persons (2) non-earning dependants and (3) earning dependants. The self-supporting persons of the non-agricultural livelihood classes are also divided into three classes as employers, employees and independent workers and are distributed in different industries and services.

3. The section provides statistics of staff employed in the State Government offices and persons employed in registered factories, mines and plantations. Statistics on employment characteristics, such as, absenteeism, accidents, disputes, wages, etc., of the labour employed in the above industries have also been included.

4. The subjects have their sources at various Government reports. The State Statistical Bureau, West Bengal, has undertaken the collection and publication of statistics of staff employed under the Government of West Bengal since 1948. The report on staff statistics is published every year and relates to staff employed as on 28th February of the year. Figures of employment in industrial establishments are compiled by the Chief Inspector of Factories from the returns submitted by the factories under the Factories Act and published annually by him in the Administration Report. The report gives figures by industry and by district. A new classification of industries was adopted by the Factories Department from the year 1950. In this section, therefore, the figures of employment in industrial establishments from 1950 have been shown separately from those of earlier years. The Chief Inspector of Mines publishes employment data for mines in his annual report which is the only source of such statistics. These are collected under the Indian Mines Act. Plantations in West Bengal are confined to tea only. Statistics of labour employed in tea-plantation are published by the Director-General of Commercial Intelligence and Statistics, Government of India. The report contains various items of information relating to tea.

5. Statistics on employment characteristics are collected by different Government departments under various Acts. In West Bengal, the Commissioner of Labour collects information in respect of strikes and lock-outs, trade unions, employment and wages, absenteeism, etc., of industries and establishments, while the Chief Inspector of Factories collects statistics of the number employed, working hours, wages and accidents of factories registered under the Factories Act. The data under the Workmen's Compensation Act are collected and published by the Commissioner for Workmen's Compensation in the annual report.

6. The statistics of industrial disputes are limited to cases which involve more than or equal to 10 workers irrespective of its duration. The data on trade unions which are published by the Government are not complete. They relate only to those trade unions which are registered under the Trade Unions Act. As registration under the Act is not compulsory, figures for unregistered unions are not available. The absenteeism figure which is collected by the State Government on a voluntary basis is not complete. Information regarding industrial accidents is confined to accidents occurring in industrial establishments covered by the Factories Act and the Mines Act. Statistics collected under the Workmen's Compensation Act relate to those accidents in which compensation has been paid. No statistics at present are available regarding accidents occurring in unregistered factories.

7. Figures for employment through Employment Exchanges have been included in this section. These are collected from the office of the Regional Director of Employment and Resettlement, West Bengal. The figures show the number of persons in need of employment and the rate at which they are employed through the exchanges.

8. Unless stated otherwise figures shown in tables do not include figures for Chandernagar and the areas transferred from Bihar to West Bengal.

IX—EMPLOYMENT AND LABOUR

(i) Occupation

Workers classified according to livelihood classes, by district 1951.

Constitution and Administration.

1. The section may conveniently be divided into the following sub-sections :—

- (i) Constitution and Election.
- (ii) Administration of Justice, Police and Jails.
- (iii) Working of local bodies, such as, municipalities, district and local boards and Improvement and Port Trusts.

2. Statistics relating to elections are generally published after every general election. The general election was held for the first time in 1951 under the new Constitution of India. The broad features of the results of the election in West Bengal are presented in this section.

3. Statistics relating to the Administration of Justice, Police and Prisons furnished here are based on the reports submitted annually to the State Government by the respective departments.

4. The reports on the Administration of Justice are issued by the Registrar, Appellate Side, by the order of the High Court. Separate volumes are published for Civil and Criminal Justice. The annual report on the working of the Registration Department is published by the Inspector-General of Registration. Each of these reports has been designed to contain a general report and statistical tables, which give comprehensive information on the subjects.

5. The primary sources of statistics on Police Administration are the reports on the Police Administration in the State, one for areas excluding Calcutta and suburbs and the other for the city of Calcutta and its suburbs. The former is published by the Inspector-General of Police and the latter by the Commissioner of Police, Calcutta. The reports give account of various crimes committed in the areas concerned.

6. Data on the working of local bodies are compiled from the various annual reports published by the State Government and the local bodies. The Government reports are based on returns submitted by the municipalities, district and local boards, and are published by the Local Self-Government Department. The reports review the various aspects of working of the local bodies including their finances.

7. The report on the municipal administration of Calcutta is published in two volumes by the Corporation of Calcutta every year. Volume I of the report deals with working of different departments of the Corporation while volume II deals with finances of the same.

8. Informations relating to the working of Calcutta Improvement Trust and Port Trust are compiled from the reports published by the Chairman and the Commissioner respectively of those Trusts. Among various items of information, the reports contain statement of annual income and expenditure of the Trusts.

9. Unless stated otherwise figures shown in tables do not include figures for Chandernagore and the areas transferred from Bihar to West Bengal.

X—CONSTITUTION AND ADMINISTRATION

(I) Election

XI—STATE FINANCE

State Finance

1. The primary sources of statistics relating to State Government finances are the Civil Budget estimate, administration reports of various Government departments and the records maintained in the office of the Accountant-General of the State.

2. The Civil Budget estimate of the State Government for the ensuing financial year, April to March, is presented by the Minister-in-charge of Finance to the State Legislature in February. The estimate also contains budget and revised estimates of revenue and expenditure for the current year and actuals for the previous year. The budget estimates are prepared by the State Finance Department.

3. The Accountant-General keeps day-to-day accounts of the expenditure and balances of different heads of account.

4. *Revenue*.—The sources of State Government revenue are quite distinct from those of the Central Government revenue. The items of revenue receipts are broadly classified into four heads according to the source. These are (1) State tax revenue, (2) revenue from other State sources, (3) share of centrally levied taxes and (4) grants-in-aid from the Central Government. State taxes which are collected in West Bengal are agricultural income-tax, land revenue, excise duties, stamps, duties under motor vehicles acts, entertainment tax, betting tax, electricity duties, professional tax, sales tax, motor spirit sales tax, raw jute tax and registration fees. Besides the receipts from these taxes, the Government of West Bengal gets a share of the net proceeds of the income tax and export duty on jute and jute goods from the Central Government.

5. *Expenditure*.—Expenditure on revenue accounts is grouped into five classes, namely, (1) Direct demand on revenue, (2) Civil administration excluding nation-building heads, (3) Nation-building heads, (4) Extraordinary charges and (5) Other miscellaneous heads.

6. Direct demand on revenue includes only expenditure incurred by the Government in collecting the various taxes, while Civil Administration includes the expenditure which the State incurs for day-to-day administration. The items of expenditure shown under nation-building heads are (1) Education, (2) Medical and Public Health, (3) Agriculture, (4) Industries, (5) Irrigation, (6) Civil Works, (7) Veterinary, (8) Co-operation and (9) Scientific Departments. Food and Supplies are the principal items under extraordinary charges.

7. It may be stated that the revenue and expenditure data published in the administration reports of the various departments may not agree with the actual shown in the budget estimate. This is due to the fact that the actuals shown in the budget estimate are arrived at after making various adjustments between State Government and Central Government accounts but the departmental figures take no account of such adjustments. It may also be pointed out that revenue and expenditure statements of some Departments relate to the calendar year and not the financial year.

8. Since 1954-55 figures shown in the tables includes figures for Chandernagar and from 1956-57, figures for territories transferred from Bihar have also been incorporated.

Source :—Central Board of Revenue.

Note.—The Statement of the new series is designed to show the total tax demand (including Sur-charge) payable by the assessors as well as the net income left in their hands after payment of the taxes. The classification according to grades is based on total income before deduction of the allowances for earned income.

Assessors in the grade below Rs. 4,200 in respect of the classes of the assessors other than Companies are generally non-residents liable to tax on the basis of their total world income.

Income-Tax demand by class of Assessors in West Bengal.

(1) Including cases under Section 38 and cases in which the income assessed or tax or both are enhanced on appeal or revision after collection of the original demand.

TRANSPORT AND COMMUNICATION

1. Statistics on Transport and Communication of the State of West Bengal are presented in this section.

2. *Roads.*—In West Bengal, the Works and Buildings Department is responsible for the construction and maintenance of roads under the direct control of Government. Data on Government roads are, therefore, not subject to much error. Information on roads maintained by municipalities and district boards are also available. These are published in the annual reports of these institutions.

3. *Railways.*—Detailed statistics on Indian Railways are published by the Railway Board in their annual report. Other periodical Government publications also contain railway statistics.

4. *Shipping.*—Director-General of Commercial Intelligence and Statistics, Government of India, publishes detailed information on all foreign and coastal shipping for each Indian port. The shipping statistics of Calcutta Port only are given in this section.

5. *Posts, Telegraphs and Telephones.*—The primary source of statistics on these subjects is the annual report of the Posts and Telegraphs Department. The report contains statistics relating to Posts, Telegraphs and Telephones in detail. But only in a few cases, figures are given separately for each State. Comprehensive information on the activities of the department in West Bengal, therefore, could not be given.

6. *Broadcasting.*—The report of Director-General of All-India Radio is the only source for data on Radio and Wireless. Statistics of licenses, issued and renewed, in West Bengal are included.

7. Unless stated otherwise figures shown in tables do not include figures for Chandernagore, and the areas transferred from Bihar to West Bengal.

TRADE AND COMMERCE

1. The subjects chosen for this section may be regarded as business indicators of the State. It includes statistics on trade, banking and currency, insurance, joint stock companies and co-operative societies.

2. Statistical information on the above subjects are systematically collected by different Government agencies and are published periodically in different reports. These reports are the primary sources.

3. Indian trade statistics are collected by different agencies. Information on foreign and coastal trade are collected by the Customs authorities while those on internal and land frontier are collected by the railways and steamer companies. It may be mentioned that data on external trade are more complete and perfect than those on the internal trade. All the above statistics are published by the Director-General of Commercial Intelligence and Statistics, Government of India.

4. It may be stated that the figures on foreign trade are based on declarations made by importers and exporters in the bills of entry and shipping bills respectively. The quantity recorded is generally the net weight, i.e., excluding packing and the value is c. i. f. in the case of imports and f. o. b. in the case of exports.

5. The Reserve Bank of India was established on the 1st April 1935 under the Reserve Bank of India Act, 1934. The Bank was constituted to regulate the issue of bank notes and to operate the currency and credit system of the country to its advantage. The Reserve Bank has taken up the publication of banking and currency statistics of India since its inception. These publications contain detailed figures on Indian banking and currency.

6. The primary source of statistics on Insurance is the Insurance Year Book issued by the Superintendent of Insurance, Government of India. The statistics are collected under the Indian Insurance Act, 1938. The publication gives particulars of insurance business transacted in India by Indian and Foreign Companies every year. It also contains a list of all companies together with other particulars.

7. Data relating to Joint Stock Companies working in different States of India are published annually by the Director-General of Commercial Intelligence and Statistics, Government of India. These figures are based on returns submitted by the Registrars of Joint Stock Companies of the State Governments and are collected under the Indian Companies Act, 1913, as amended in 1936.

The report gives a classified list of all companies together with their capital structures.

8. The statistical statements relating to co-operative movement in India published every year by the Reserve Bank of India contain information relating to the working of the co-operative societies in this country. In West Bengal, the Registrar of Co-operative Societies publishes an annual report on the working of the co-operative societies in the State which contains detailed information regarding the operation of different types of societies working in different districts of the State.

9. Unless stated otherwise figures shown in tables do not include figures for Chundernagore, and the areas transferred from Bihar to West Bengal.

PRICES

1. The section includes price statistics and cost of living index numbers. Wholesale prices of agricultural and animal husbandry products in Calcutta are collected by the Agricultural Marketing Department and published in the "*Calcutta Gazette*." Prices of certain agricultural products at different stations of West Bengal are regularly published in the "*Calcutta Gazette*" by the Director of Agriculture. Director of Statistics, Department of Food, collects wholesale and retail price data for certain essential commodities at Calcutta and some selected markets of West Bengal. Besides these, the State Statistical Bureau collects retail prices of commodities at Calcutta and Asansol markets in order to maintain the cost of living indexes for middle class and menial class families. The Bengal Chamber of Commerce, Calcutta, publishes a weekly bulletin under the caption, "Calcutta Prices Current and Money Market Report". This report, amongst other information, contains data showing the import and export prices of various commodities.

2. The Department of Commercial Intelligence and Statistics, Government of India, used to prepare a wholesale price index for Calcutta market. Since July 1951 the work has been taken up by the State Statistical Bureau, Government of West Bengal. This index is published once every month in the weekly Trade Journal. The office of the Economic Advisor to the Government of India publishes regularly the Index Number of Wholesale Prices in India.

3. The State Statistical Bureau, West Bengal, maintains a series of retail price indexes for food items, which are published in the Monthly Statistical Digest.

4. Unless stated otherwise figures shown in tables do not include figures for Chandernagore, and the areas transferred from Bihar to West Bengal.

*Two items have been dropped under sugar since February, 1934, two under tea since 1951, one under mustard oil since July 1951 and all the items under cotton manufactures and building materials since 1942 as their quotations are no longer available and suitable substitutes cannot be found for them.

†Price quotations are not available.

‡As quotations for rice were not available from the usual trade sources, the officially controlled prices in force were being used during the period of operation of the rationing for the purpose of computation of the Index from October 1943 to July 1954. From August 1954, the price of "Rice common variety open market" is being taken for the purpose of computation of the Index.

§Index compiled from quotations of sugar as well as of Bhill gur, (Raw sugar).

Note : Figures for the period prior to July 1951, were compiled by the Department of Commercial Intelligence and Statistics.
